Picture Coming Soon

SG2

**Safety Glasses.** Clear surround box type goggle provides a wide view and has a polycarbonate lens. Open ventilation. Essential safety equipment for the locksmith, but also saleable to the DIY customer.

1TW

**Tweezers.** Excellent for handling cylinder pins, small lock parts, etc.

## LOCKSMITHS' ACCESSORIES

**LOCKS PICKS/EXTRACTORS/TENSION TOOLS**  
SOLD ONLY TO LAW ENFORCEMENT AGENCIES & ACCREDITED LOCKSMITHS.

Cat. No.

1PP

**Pin Punch.** Precision made 1/16" (1.59mm) diameter with positive handle grip.

101FT

**Following Tools**

Solid type. Fits Yale and other cylinders.

151PH

**Plug Holders.** Expendable type, made of non-ferrous metal. Economical and inexpensive. .510" diameter. Use with **101FT** following tool.

2ST

**Shim Stock.** Curved shim stock in strips for opening locks. Each is 1/4" x 1 3/4" and only .0015" thick. Saves time and does away with packing or rapping pin tumblers. Curved shim is rigid and can be used more easily and successfully than flat stock. Works on all types of tumbler pins. Can be used to make up special tools for reaching cylinder pins in difficult to reach cylinder such as those, which cannot be removed from the knobs of key-in-knob locks and many other applications.

**95001**

**Graphite Tube** (3.25g skin card). High-quality dry lubricant  
Needle-nose tube makes small applications easy.

**1GG**

**Graphite.** Highly effective powdered graphite. Recommended for pin tumbler locks and general lubrication of all moving lock parts. Handy, non-clogging spout with cap ensures easy use. 100ml squeeze bottle

**SKP**

**Cylinder Key Way Panel.** Quick, accurate way to check on popular cylinder key profiles.

**1KG**

**Pin and Pipe Key Gauge.** Measures gauges 1-12 in half sizes for pin keys, whole sizes for pipe keys.

**LOCKSMITHS' ACCESSORIES**

**LOCKS PICKS/EXTRACTORS/TENSION TOOLS**  
SOLD ONLY TO LAW ENFORCEMENT AGENCIES & ACCREDITED LOCKSMITHS.
